

# NGUYEN VAN THANG

Frontend Developer

1. Frontend Technologies: **React, Next.js, TypeScript, JavaScript, Redux, Zustand, React Native, jQuery**.
2. UI & Styling: **HTML5, CSS3, SCSS, SASS, Tailwind CSS, Material UI, Bootstrap**.
3. Validation, Testing & Charts: **Zod, Yup, Jest, Chart.js, ApexCharts**.
4. Data & Integration: **RESTful APIs, Axios, WebSocket (Socket.io)**.
5. Tooling & Platforms: Git, GitHub, Docker, Firebase, Figma, Photoshop.
6. Backend (Working Knowledge): Node.js, Express.js, Laravel, SQL Server.
7. AI-assisted Development: Experience using AI-assisted tools to support software development and daily engineering tasks.

## PROFESSIONAL SUMMARY

**Frontend Developer** with 6+ years of experience building scalable web and mobile applications. Strong expertise in designing reusable UI architectures, optimizing performance for large-scale products, and taking ownership of frontend solutions. Proven ability to collaborate closely with backend, product, and QA teams to deliver reliable, high-quality user experiences.

## BASIC INFORMATION

Web: [thanguyen.io.vn](http://thanguyen.io.vn)

Phone : 0398369268

Email: [thanguyen.ag@gmail.com](mailto:thanguyen.ag@gmail.com)

Address : Ho-Chi-Minh

## WORK EXPERIENCE

### ■ METACREW

#### Front-end developer

06-2023 ~ currently

- Designed and developed scalable frontend architectures for product-based systems.
- Collaborated with cross-functional teams to deliver high-quality products for Korean clients.
- Mentored frontend developers and participated in technical interviews, contributing to team growth and hiring quality.
- Worked closely with backend and product teams to define APIs, align technical solutions, and resolve complex integration issues.
- Improved application performance and scalability by optimizing component rendering, state management, and data-fetching strategies across multiple products.

### ■ MOR Software JSC

#### Front-end developer

05-2021 ~ 06-2023

- Built reusable UI components and state management solutions, improving development speed across projects.
- Actively participated in outsourcing projects for Japanese clients, ensuring high code quality and delivery standards.
- Worked closely with backend engineers to integrate RESTful APIs and ensure seamless frontend-backend communications.
- Reviewed and merged frontend code, provided technical guidance, interview of the intern and mentored junior developers.

### ■ EPLUS Technology Solutions

#### Web developer

08-2019 ~ 05-2021

- Developed and maintained reusable components to improve code maintainability and reduce development time.
- Assisted senior developers in resolving technical problems and provided support for junior developers.
- Collaborated with designers and backend teams to integrate APIs and implement UI from design specifications.
- Contributed to backend development using Laravel and Node.js for internal company products.
- Contributed to build projects for company, creating responsive websites using HTML, CSS, and jQuery.

## EDUCATION BACKGROUND

### ANGIANG UNIVERSITY

Bachelor of Information Technology

06-2015 ~ 06-2019

## FEATURED PROJECTS

### Metacrew (2023 - 2025)

#### ■ ADSHUB – Online advertising platform

My position	Frontend Developer - Team size : 6
Role	<ul style="list-style-type: none"><li>Built scalable React-based dashboards for ad management and performance analytics, handling large and frequently updated datasets.</li><li>Developed reusable data visualization components (charts, tables) for real-time and historical campaign metrics.</li><li>Integrated WebSocket-based real-time updates for campaign status and reporting.</li><li>Collaborated with backend teams to optimize API data flow and frontend performance.</li></ul>
Tech	React, Redux, TypeScript, Chart.js, NodeJS

#### ■ PressAI – Platform that uses AI to create and optimize media content, supporting users in content management (Korea)

My position	Frontend Developer - Team size : 6
Role	<ul style="list-style-type: none"><li>Developed frontend features for AI-assisted content creation and media management using Next.js and React.</li><li>Built content dashboards and analytics views to manage articles, assets, and performance insights.</li><li>Integrated real-time collaboration and update mechanisms using.</li><li>Optimized rendering and data loading for content-heavy pages to improve user experience.</li></ul>
Tech	NextJS, Redux, TypeScript, Chart.js, Socket.io, NodeJS

#### ■ Superarbi – Platform for automated cryptocurrency analysis and trading

My position	Frontend Developer - Team size : 4
Role	<ul style="list-style-type: none"><li>Developed real-time trading and analytics interfaces using React and TypeScript.</li><li>Integrated TradingView charts and WebSocket streams to display live market data and indicators.</li><li>Optimized UI performance for high-frequency data updates and real-time interactions.</li><li>Worked closely with backend teams to ensure data consistency and stability in a trading environment.</li></ul>
Tech	React, Redux, TypeScript, TradingView Charts, Native WebSocket API, NodeJS.

### MOR Software JSC (2021 - 2023)

#### ■ CIZ – Spa Enterprise Management System (Japan)

My position	Sub-lead Frontend Developer - Team size : 10
Role	<ul style="list-style-type: none"><li>Designed frontend architecture using React, TypeScript, and Redux Saga for a large-scale enterprise management platform.</li><li>Led task estimation, sprint planning, and task assignment for the frontend team.</li><li>Implemented complex features including booking workflows, POS integration, barcode scanning, and Azure SSO authentication.</li><li>Reviewed frontend code and optimized application performance and accessibility.</li></ul>
Tech	React, TypeScript, Redux Saga, Azure, AWS, SCSS, POS, Barcode

## ■ SCHOOL – Education Booking & Management Platform (Japan)

My position	Frontend Developer (Web & Mobile) - Team size : 6
Role	<ul style="list-style-type: none"> <li>Developed web and mobile applications using React and React Native.</li> <li>Implemented booking, payment, chat, and notification features.</li> <li>Configured push notifications, deep linking, and environment setup for mobile apps.</li> <li>Reviewed code and ensured responsive design across devices.</li> </ul>
Tech	React, React Native, Redux Toolkit, Redux Saga, TypeScript, Chart.js, Laravel, Docker, AWS

## ■ TOUCHOKU – Hospital Schedule Management System (Japan)

My position	Frontend Developer - Team size : 5
Role	<ul style="list-style-type: none"> <li>Developed user-friendly web interfaces for hospital scheduling, staff management, and booking services.</li> <li>Collaborated with stakeholders to gather requirements and translate them into scalable frontend solutions.</li> <li>Improved performance and accessibility for daily operational use.</li> </ul>
Tech	React, TypeScript, Redux, SCSS, AWS

## EPLUS Technology Solutions (2019 - 2021)

## ■ SME – Business Social Networking Platform

My position	Developer - Team size : 8
Role	<ul style="list-style-type: none"> <li>Built frontend interfaces from design files using HTML, CSS, Bootstrap, and jQuery.</li> <li>Implemented core backend features using Laravel, including post management, user profiles, and news feed logic.</li> <li>Worked with Vue.js on selected screens to improve interactivity.</li> <li>Maintained legacy codebase and supported feature enhancements and bug fixes.</li> </ul>
Tech	Bootstrap 4, Jquery, Vue, DatePicker, Datatable.js, Laravel, Ajax, HTML, CSS, Nginx

## ■ Affiliate Marketing Platform (Vietnam)

My position	Developer - Team size : 5
Role	<ul style="list-style-type: none"> <li>Developed and maintained frontend UI using HTML, CSS, Bootstrap, and jQuery based on design specifications.</li> <li>Implemented backend features using Laravel, including campaign, commission calculation, and user role.</li> <li>Integrated frontend with backend services via Ajax and RESTful APIs.</li> <li>Built reporting and analytics views using Chart.js to visualize campaign and revenue data.</li> <li>Collaborated with team members to fix bugs, improve system stability, and optimize performance.</li> </ul>
Tech	Bootstrap 4, Jquery, Chart.js, DatePicker, Datatable.js, Laravel, Ajax, HTML, CSS, Nginx

## ■ Booking System – Flight, Hotel & Car Rental

My position	Developer - - Team size : 8
Role	<ul style="list-style-type: none"> <li>Developed booking-related frontend pages and user flows for flights, hotels, and car rentals.</li> <li>Implemented backend logic for booking management, agency management, and payment workflows.</li> <li>Integrated frontend UI with backend APIs to handle booking data and transaction states.</li> <li>Participated in maintaining and improving existing features based on business requirements.</li> </ul>
Tech	Query, Bootstrap 4, Chart.js, DatePicker, Ajax, Laravel, NodeJS
